

## OutsideView Version Comparison Matrix

Version	8.2	9.1
<b>Support Status</b>		
Star Support available		✓
<b>Supported Environments</b>		
Native 64-bit application		✓
Requires .NET	3.5sp1+	4.5+
Windows 2000		
Windows 2003		
Windows XP		
Windows Vista	✓	
Windows Server 2008	✓	
Windows 7	✓	
Windows 8	✓	
Windows Server 2012	✓	
Windows 10	✓	✓
Windows Server 2016		✓
Windows Server 2019		✓
<b>Windows 11 support</b>		✓
<b>Windows Server 2022 support</b>		✓
SQL Server 2012	✓	
SQL Server 2016		✓
SQL Server 2019		✓
<b>SQL Server 2022</b>		✓
Citrix or Windows Terminal Server (with concurrent license)	✓	✓
<b>Emulation</b>		
Tandem TN6530 (C00 level)	✓	✓
Tandem TN6530 (full G51 level)	✓	✓
Seamless 6530/OSS mode switching	✓	✓
IBM TN3270	✓	✓

IBM TN3270E (Extended Mode)	✓	✓
IBM TN5250	✓	✓
Unix/OSS Emulation (VT100/220/320)	✓	✓
Wyse50	✓	✓

## OutsideView Version Comparison Matrix

Version	8.2	9.1
<b>Connectivity Methods</b>		
TCP/IP with automatic reconnect	✓	✓
Full IPv6 support		✓
SSL/TLS 1.2	✓	✓
SSH-2 for 6530 emulation and SFTP	✓	✓
Multi-segment SSH tunneling	✓	✓
HTML Tunneling		✓
Async	✓	✓
NonStop IPX/SPX, Tandem D30	✓	
MultiLAN	✓	
Auto-Reconnect after VPN fault	✓	✓
Automatic host failover for all I/O methods		✓
<b>Security/Encryption</b>		
Password protection for session files		✓
Signed application code	✓	✓
SSL/TLS 1.2	✓	✓
Flexible DNS name checking in SSL	✓	✓
PKI server authentication	✓	✓
SSH-2 support	✓	✓
SSH Diffie-Hellman key exchange	✓	✓
<b>SSH ecdsa-sha2-nistp521 host key support</b>		✓
<b>SSH hmac-sha2-512 MAC algorithm support</b>		✓
SSH Single Signon Support (Kerberos)	✓	✓
<b>File Transfer Methods</b>		
“Download and Edit” one step operation	✓	✓
SSH-Secured File Transfer (SFTP)	✓	✓
Multi-segment SSH tunneling	✓	✓
SSL Secured File Transfer (FTPS)	✓	✓

FTP	✓	✓
Multiple host uploads	✓	✓
Host-to-Host transfers	✓	✓
<b>Support in FTP/STP for Single Use Passwords</b>		✓
IXF with graphical interface	✓	✓

## OutsideView Version Comparison Matrix

Version	8.2	9.1
<b>User Interface Features</b>		
User selectable look & feel	✓	✓
Live thumbnail view support	✓	✓
Tabbed session selection	✓	✓
Display adapts dynamically across non-similar monitors	✓	✓
Multiple custom sessions	✓	✓
Multiple custom workspaces	✓	✓
Clone session capability	✓	✓
Trace capability	✓	✓
Scrollback buffer search	✓	✓
Customizable toolbars	✓	✓
Context sensitive toolbars	✓	✓
Dockable toolbars	✓	✓
Customize and import icons	✓	✓
Custom keyboard mapping	✓	✓
Macro language (based on Visual Basic syntax)	✓	✓
.NET API	✓	✓
Universal editor (syntax aware and color coded)	✓	✓
Auto-invoke macro at application, workspace, session start	✓	✓
Auto-invoke .NET executable at application, workspace, session start	✓	✓
Read-only macros	✓	✓
Unicode/UTF-8 support	✓	✓

Japanese character set support	✓	✓
Chinese character set support (PRC, Hong Kong, S.A.R., Taiwan)	✓	✓
Korean character set support	✓	✓
ISO 8859 international character sets	✓	✓
Failover to alternate host & port	✓	✓
MAPI enabled (email from within OutsideView)	✓	✓
Identity management for caching NSK credentials	✓	✓
Identity management for caching both link level and NSK credentials		✓
Dynamic switching between 80 and 132 column modes		✓

## OutsideView Version Comparison Matrix

Version	8.2	9.1
<b>Organizing Workspaces with large number of Sessions</b>		
Session tabs organized into groups horizontally or vertically		✓
Session bar organized by session type and subgroup		✓
Sessions visually filtered by session type and subgroup		✓
Enhanced session color coding		✓
Sessions connect simultaneously for faster startup		✓
Sessions can be marked for deferred connection		✓
<b>Dynamic Input Assistance™</b>		
Command line Edit capability	✓	✓
Context sensitive, editable, command history list	✓	✓
History list is persistent across executions of OutsideView	✓	✓
Command syntax assistance	✓	✓
Spell checker	✓	✓
<b>Enterprise Administration</b>		
Centralized configuration administration	✓	✓
SMS support	✓	✓
Single point of change for updates	✓	✓
Centralized permissions administration	✓	✓
Automatic user update upon share location or database changes	✓	✓
Disable printing from OutsideView	✓	✓
Concurrent licensing	✓	✓
Profile level control over FTP capability	✓	✓
Detailed user permissions matrix	✓	✓
"Lockdown" run mode	✓	✓
Enterprise hub failover (Disaster Recovery)	✓	✓
Automatic update distribution	✓	✓
Multiple profile support	✓	✓
Roving profile support	✓	✓

LicenseView maintenance utility	✓	✓
Microsoft SQL based licensing	✓	✓
Unlimited client installations (concurrent licensing)	✓	✓
Dynamic profile membership	✓	✓
Synchronize selected licenses	✓	✓
Automatic service name look up	✓	✓
